

LOWER EXTREMITY AMPUTATION PREVENTION PROGRAMME (LEAPP)

What is LEAPP?

LEAPP is a one-stop specialised multidisciplinary clinic to help patients with Diabetic Foot Ulcer (DFU) reduce DFU-related complications, amputation rates and the need for hospital stays.

Early tests (e.g. X-Rays, blood tests) and **multi-disciplinary treatment** for your foot wounds

One-stop multi-disciplinary clinic to **save** time and expenses on commuting

Advice on care tips you can do from home, and how to prevent further problems

The LEAPP Team

- Vascular Surgeon
- Orthopaedic Surgeon
- Endocrine Specialist
- Podiatrist
- Wound Care Nurse
- Diabetic Nurse Clinician

You will be seen by different specialist(s) and allied health professionals on the **same day**.
