

**LIVE
WEBINAR***

NATIONAL HEALTHCARE GROUP
EYE INSTITUTE @ TTSH

**SATURDAY, 13 JUL 2024
10AM – 11AM**

CATARACT

Cataract is the leading cause of reversible blindness and visual impairment globally. The only treatment for visually significant cataracts is cataract surgery, which is the most performed eye surgery worldwide. How do patients know if they have cataracts? What are the surgical options? How does surgery improve vision?

Come join us for this public forum on 13 July 2024 to learn all about this common eye problem.

DR AARON NG
ASSOCIATE CONSULTANT
NHG Eye Institute @ TTSH
