

TRAUMATIC BRAIN INJURY (TBI) MASTERCLASS

REHABILITATION OF TBI: FROM COMA TO COMMUNITY

This Masterclass will highlight common topics facing healthcare professionals who manage TBI patients. Participants will gain insights into outcomes-driven neurosurgery and neuro critical care, practical approaches to behavioural issues by ward-based teams, learn about the benefits and ways to implement environmental modification and sensory regulation for agitated TBI, coma recovery assessments and community supports.

17 JANUARY 2025
